EMPLOYMENT AND EARNINGS  
UNDER THE ARKANSAS EMPLOYMENT SECURITY LAW  
THIRD QUARTER 2009

**DESCRIPTION OF DATA**

This publication contains covered employment and payroll data by industry and county for the Third Quarter 2009. These data are compiled from quarterly contributions and wage reports submitted by employers subject to the Arkansas Employment Security Law. An employing unit is a single physical location where business is conducted, production takes place, or services are provided. Employment data have been tabulated for each month of the quarter by industry under the **North American Industry Classification System** (NAICS) (see "Industry Classification" below) on a statewide, county and workforce area basis. Payroll data represent the total wages paid during the quarter, and are also shown by industry for the State and

by publishable industry groups for each county and workforce area. The tabulation of this data is a joint effort in conjunction with the U.S. Bureau of Labor Statistics. In addition, there are tables included which set out total covered employment by months, quarterly payrolls, and average weekly earnings for the years 2002 through 2009. Data contained in this publication are subject to revisions. These revisions are typically reflected in the 2009 Annual Covered Employment and Earnings publication. Because of industry code changes between years, substantial employment and wage shifts among industries are anticipated.

**INDUSTRY CLASSIFICATION**

Previously published industry data will not be comparable in all instances with currently published data since industry codes have been revised. The last two revisions have occurred using the North American Industry Classification System (NAICS) which is a six digit industry code instead of the Standard Industrial Classification system which was a four digit industry code, which had been used previously. The following are the NAICS Manuals used to revise the data: (a) between January 1, 2001 and December 31, 2006 industry codes were assigned under the 2002 North American Industry Classification System (NAICS) Manual; (b) since January 1, 2007 industry codes are assigned under the 2007 North American Industry Classification System Manual. The NAICS Manual represents a significant change in coding methodology as compared to the SIC Manual. One of the most significant changes involves how NAICS treats auxiliary units.

Auxiliary units are establishments primarily engaged in performing management of support services for other establishments of the same enterprise. The SIC code for these units was based on the activity of the enterprise served. The NAICS code is based on the actual activities that the establishment performs. Comparisons of many industries should not be made between this publication and previous Covered Employment and Earnings publications that were based on SIC. Even though some titles are the same or similar, in nature, NAICS and SIC could differ in classification of employers. The implementation of NAICS represents a profound change for statistical programs and will create significant benefits along with transition obstacles for both data collectors and data users. A summary is available on the NAICS home page at <http://www.census.gov/naics>.

## DEFINITION OF COVERED EMPLOYMENT AND EARNINGS

Covered Employment is the number of workers employed by employers subject to the Arkansas Employment Security Law who worked or received pay for the payroll period including the 12<sup>th</sup> of the month. An employer is subject to the law when they employ one or more employees in each of ten days during the current or preceding calendar year.

Currently excluded from coverage is employment covered by the Railroad Unemployment Insurance Act, some domestic service workers, employees of small agricultural establishments, self-

employed and unpaid family workers, insurance and real estate agents who are on commission only, and employees of churches and religious organizations except separately incorporated schools. The payroll information in this publication includes all wages and salaries paid to any covered employees by their employers including bonuses, commissions, and cash values of remuneration received in any medium other than cash. These wages include both taxable and nontaxable wages. Only the first \$10,000 paid to each worker by an employer in the calendar year is taxable under the Arkansas Employment Security Law.

## FEDERAL GOVERNMENT EMPLOYMENT

Table 7 on page 7 lists the total number of civilians employed by the Federal Government in Arkansas during the Third Quarter 2009. Employment and wage data are set out by industry divisions.

These data are obtained from required reports submitted by various government agencies having employment in the State. Civilian Federal workers are covered by the Unemployment Compensation for Federal Employees (UCFE) program.

## COUNTY CLASSIFICATION

Employment and payroll data by county are classified according to the county where the workers are employed. Employers with operations in more than one county are requested to furnish this agency with a breakdown of employment and wages for at least one quarter of each year by the counties in which they operate. Many such employers submit county data with each regular contribution report. Note: This information is invaluable in the preparation of monthly employment and payroll data by county.

Employment and payroll data for multi-area employers, who do not furnish county data each quarter of the year, are prorated by county on the basis of one quarter's information. The "rest-of-state" table that appears on page 54 of this publication includes data on firms that did not provide a county breakdown of employment and payrolls. It also includes sales, and all other type of personnel with no permanent place of work, as well as employment of employers with no established place of business in Arkansas.

## SIGNIFICANT DEVELOPMENTS DURING THIRD QUARTER 2009

### AVERAGE EMPLOYMENT CHANGES

Covered employment averaged 1,093,607 during the Third Quarter 2009 (see table 1), a decrease of 27,590 (-2.5%) from the previous quarter and a decrease of 46,318 (-4.1%) from the average reported one year ago. This over-the-year decrease is more significant when used as an economic indicator. This over-the-year comparison allows for the disregarding of many seasonal factors that are evident when making an over-the-quarter comparison.

Industry Classification	Percent of Employment
Natural Resources & Mining	1.9%
Construction	4.9%
Manufacturing	14.8%
Trade, Transportation & Utilities	21.1%
Information	1.5%
Financial Activities	4.5%
Professional & Business Services	10.3%
Education & Health Services	14.6%
Leisure & Hospitality	9.3%
Other Services	2.3%
State & Local Government	14.8%

### EMPLOYMENT CHANGES FROM SECOND QUARTER 2009

Covered employment decreased in seven of eleven industries from Second Quarter 2009. State and Local Government reported the largest decline, -25,557, a seasonal decrease. Manufacturing continued a downward trend with -2,653 positions. Trade, Transportation, and Utilities posted a loss of -1,641 jobs. Leisure and Hospitality (-405), Financial Activities (-361), Information (-292), and Professional and Business Services (-155) reported minor losses. Construction gained 2,269 positions, a significant increase from the prior quarter. Education and Health Services (855), Natural Resources and Mining (329), and Other Services (19) reported small gains.

### EMPLOYMENT CHANGES FROM THIRD QUARTER 2008 (QUARTER YEAR AGO COMPARISON)

Over-the-year losses were recorded in nine industry groups while only two posted gains (see Table 1). Manufacturing continued to show a declining trend with a loss of 21,264 jobs. Trade, Transportation & Utilities (-13,333), Professional and Business Services (-5,820), and Construction (-4,402) reported significant losses. Gains continued trending in Education & Health Services (4,831) and State & Local Government (1,164).

### COVERED WAGES

Wages paid to covered workers totaled \$9,213,797,140 for the Third Quarter 2009 (see Table 1), for an average weekly wage of \$648.09 (see Table 5). Employees in Calhoun recorded the highest average weekly wage (\$840.06). Workers in Searcy County posted the lowest (\$385.61) (see Table 6).

The Information sector recorded the highest average weekly wage for the State of Arkansas at \$893.70. The Leisure & Hospitality sector reported the lowest at \$252.83 (see Table 5).

Industry Classification	Average Weekly Wage
Natural Resources & Mining	\$763.55
Construction	\$759.44
Manufacturing	\$709.24
Trade, Transportation & Utilities	\$620.90
Information	\$893.70
Financial Activities	\$803.29
Professional & Business Services	\$779.07
Education & Health Services	\$665.37
Leisure & Hospitality	\$252.83
Other Services	\$490.03
State & Local Government	\$668.32
