EMPLOYMENT AND EARNINGS
UNDER THE ARKANSAS EMPLOYMENT SECURITY LAW
SECOND QUARTER 2010

DESCRIPTION OF DATA

This publication contains covered employment and payroll data by industry and county for the Second Quarter 2010. These data are compiled from quarterly contributions and wage reports submitted by employers subject to the Arkansas Employment Security Law. An employing unit is a single physical location where business is conducted, production takes place, or services are provided. Employment data have been tabulated for each month of the quarter by industry under the **North American Industry Classification System** (NAICS) (see "Industry Classification" below) on a statewide, county and workforce area basis. Payroll data represent the total wages paid during the quarter, and are also shown by industry for the State and

by publishable industry groups for each county and workforce area. The tabulation of this data is a joint effort in conjunction with the U.S. Bureau of Labor Statistics. In addition, there are tables included which set out total covered employment by months, quarterly payrolls, and average weekly earnings for the years 2003 through 2010. Data contained in this publication are subject to revisions. These revisions are typically reflected in the 2010 Annual Covered Employment and Earnings publication. Because of industry code changes between years, substantial employment and wage shifts among industries are anticipated.

INDUSTRY CLASSIFICATION

Previously published industry data will not be comparable in all instances with currently published data since industry codes have been revised. The last two revisions have occurred using the North American Industry Classification System (NAICS) which is a six digit industry code instead of the Standard Industrial Classification system which was a four digit industry code, which had been used previously. The following are the NAICS Manuals used to revise the data: (a) between January 1, 2001 and December 31, 2006 industry codes were assigned under the 2002 North American Industry Classification System (NAICS) Manual; (b) since January 1, 2007 industry codes are assigned under the 2007 North American Industry Classification System Manual. The NAICS Manual represents a significant change in coding methodology as compared to the SIC Manual. One of the most significant changes involves how NAICS treats auxiliary units.

Auxiliary units are establishments primarily engaged in performing management of support services for other establishments of the same enterprise. The SIC code for these units was based on the activity of the enterprise served. The NAICS code is based on the actual activities that the establishment performs. Comparisons of many industries should not be made between this publication and previous Covered Employment and Earnings publications that were based on SIC. Even though some titles are the same or similar, in nature, NAICS and SIC could differ in classification of employers. The implementation of NAICS represents a profound change for statistical programs and will create significant benefits along with transition obstacles for both data collectors and data users. A summary is available on the NAICS home page at <http://www.census.gov/naics>.

DEFINITION OF COVERED EMPLOYMENT AND EARNINGS

Covered Employment is the number of workers employed by employers subject to the Arkansas Employment Security Law who worked or received pay for the payroll period including the 12th of the month. An employer is subject to the law when they employ one or more employees in each of ten days during the current or preceding calendar year.

Currently excluded from coverage is employment covered by the Railroad Unemployment Insurance Act, some domestic service workers, employees of small agricultural establishments, self-

employed and unpaid family workers, insurance and real estate agents who are on commission only, and employees of churches and religious organizations except separately incorporated schools. The payroll information in this publication includes all wages and salaries paid to any covered employees by their employers including bonuses, commissions, and cash values of remuneration received in any medium other than cash. These wages include both taxable and nontaxable wages. Only the first \$10,000 paid to each worker by an employer in the calendar year is taxable under the Arkansas Employment Security Law.

FEDERAL GOVERNMENT EMPLOYMENT

Table 7 on page 63 lists the total number of civilians employed by the Federal Government in Arkansas during the Second Quarter 2010. Employment and wage data are set out by industry divisions.

These data are obtained from required reports submitted by various government agencies having employment in the State. Civilian Federal workers are covered by the Unemployment Compensation for Federal Employees (UCFE) program.

COUNTY CLASSIFICATION

Employment and payroll data by county are classified according to the county where the workers are employed. Employers with operations in more than one county are requested to furnish this agency with a breakdown of employment and wages for at least one quarter of each year by the counties in which they operate. Many such employers submit county data with each regular contribution report. Note: This information is invaluable in the preparation of monthly employment and payroll data by county.

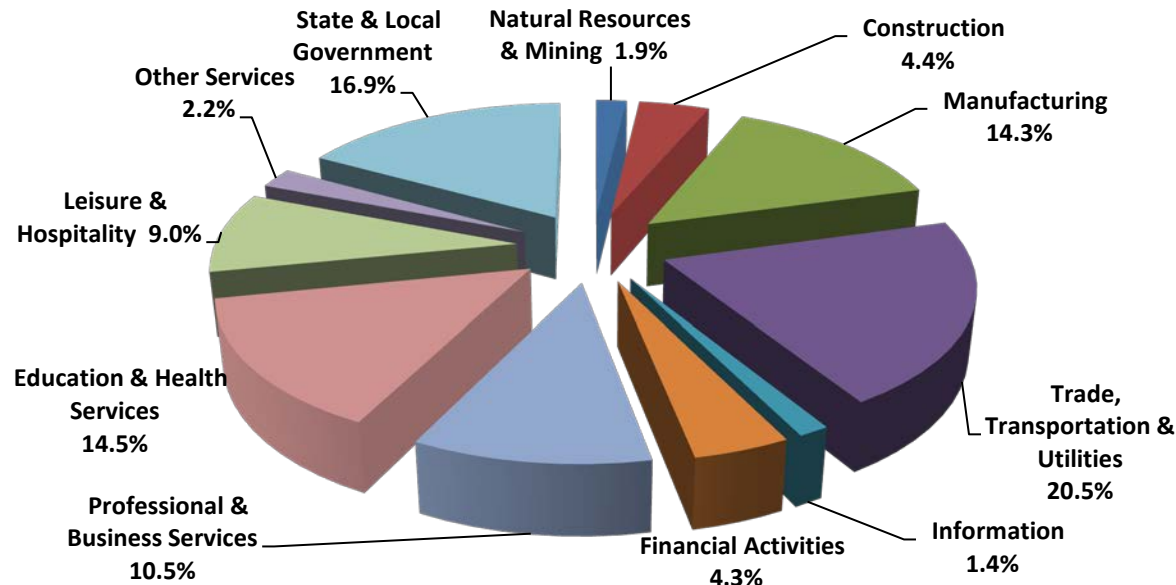

Employment and payroll data for multi-area employers, who do not furnish county data each quarter of the year, are prorated by county on the basis of one quarter's information. The "rest-of-state" table that appears on page 62 of this publication includes data on firms that did not provide a county breakdown of employment and payrolls. It also includes sales, and all other type of personnel with no permanent place of work, as well as employment of employers with no established place of business in Arkansas.

SIGNIFICANT DEVELOPMENTS DURING SECOND QUARTER 2010

AVERAGE EMPLOYMENT CHANGES

Covered employment averaged 1,122,918 during the Second Quarter 2010 (see table 1), an increase of 27,097 (2.5%) from the previous quarter and an increase of 1,721 (0.2%) from the average recorded one-year ago. This over-the-year increase is more significant when used as an economic indicator. This over-the-year comparison allows for the disregarding of many seasonal factors that are evident when making an over-the-quarter comparison.

Average Covered Employment by NAICS

EMPLOYMENT CHANGES FROM FIRST QUARTER 2010

Compared to First Quarter 2010, covered employment increased in all eleven major industry sectors, Leisure & Hospitality reported the largest gain (6,872), both subsectors experienced improvements. Trade, Transportation & Utilities increased 3,828 jobs, most of the growth occurred in Retail Trade. The expansion in Construction (3,768) was due to seasonal increases. Professional & Business

services increased (3,312) from fluctuations in Employment Services. Other industry gains were seen in Manufacturing (2,616), Educational & Health Services (1,946), Natural Resources & Mining (1,834), State & Local Government (1,299), Other Services (1,111), Financial Activities (350) and Information (161).

EMPLOYMENT CHANGES FROM SECOND QUARTER 2009 (QUARTER YEAR AGO COMPARISON)

Over-the-year gains were recorded in five industry groups while six recorded losses (see Table 1). The largest gains were posted in Professional & Business Services (5,404), Education & Health Services (3,437), and State & Local Government (2,497). Significant losses occurred in Manufacturing (3,531), and Trade, Transportation & Utilities (2,129).

COVERED WAGES

Wages paid to covered workers totaled \$9,873,489,653 for the Second Quarter 2010 (see Table 1), for an average weekly wage of \$676.36 (see Table 5). Employees in Benton County recorded the highest average weekly wage (\$839.55), and workers in Cleveland County the lowest (\$392.03) (see Table 6).

The Information sector recorded the highest average weekly wage for the State of Arkansas at \$877.99; while the Leisure & Hospitality sector recorded the lowest at \$254.82 for the State of Arkansas (see Table 5).

Average Weekly Wage by Industry
